Website Design & Setup

A TotusTech Website Solution

TotusTech's Web Design & Setup Packages

SIMPLE REDESIGN

With our contracted hosting company, it only takes a few seconds the change the entire look and feel of your site. You can add all of the content that you want, and change the template your site is using to create a very professional website, without any commitment to the design until you are ready!

CONTRACTED HOSTING

So, what does that mean exactly? The hosting and online editing company that we utilize is Webs.com. They do an incredible job managing their secure web servers, and so we believe partnering up with Webs.com will help you create the very best, most professional looking website around.

MANAGING CONFUSION

We do understand that setting up a website can be a confusing and frustrating process. However, we also know that it doesn't have to be. That is where we come in. We give you the skills you need to edit and maintain your website effectively. Instead of paying someone else to edit your site for you, we teach you how to make changes in a matter of seconds and post them online for your friends, or customers to see.

Additional Information

Adding a Domain Name

You can easily add an extra custom .com domain name onto our **Red** or **Gold-Business** web design packages for just under \$10 per year through one of the many domain name registrars. We will help you connect your new domain name to your website!

Additional Information

Does your website design and setup request not fall into one of these categories listed to the left? No problem. We can work with you to design a web setup package that works for you!

Please remember to read our terms and conditions statement before signing up.

The prices listed here are subject to change.

Worried about setting up your own website? There is nothing to worry about. We will walk you through the process step-by-step until you feel comfortable editing your own site!

Relevant Tech Vocabulary

Bandwidth* - The amount of bandwidth you are allotted by your web host will determine the number of visitors you are allowed in a given period of time.
